

### Inventory 2000

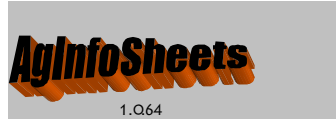

The report "Inventory 2000" gives producers that utilize the Week of Slaughter component a look at when selected cattle are projected to finish in the year 2000. The report also includes breed and color information, as well as medication, treatment, and implant logs that are of interest when scheduling slaughter shipments. The bar chart gives a visual snapshot of when the cattle will be finishing. The time frame can easily be changed by changing the distribution table on the Chart page.

# Inventory 2000 Report

## Lot Number 125

Animal Count: 15
